

Points (1 Point Each)	User Story	Criteria (Out of 10)		
1	Your product landing page should have a header element with a corresponding id="header"	Delivery	10	Is the assignment on time?
1	You can see an image within the header element with a corresponding id="header-img" (A logo would make a good image here)	Program Specifications/Correctness	10	Are there errors and does it meet specifications?
1	Within the #header element, you can see a nav element with a corresponding id="nav-bar"	Documentation	10	No errors, and the code is well-commented and there is a ReadMe.
1	You can see at least three clickable elements inside the nav element, each with the class nav-link	Reusability/DRY	10	No errors, code uses the best approach for this program and code doesn't repeat.
1	When you click a .nav-link button in the nav element, you are taken to the corresponding section of the landing page	Score out of 40	40	FINAL GRADE 109%
1	You can watch an embedded product video with id="video"	Score (Out of 55)	55	
1	Your landing page has a form element with a corresponding id="form"	ADD EXTRA CREDIT	60	
1	Within the form, there is an input field with id="email" where you can enter an email address			
1	The #email input field should have placeholder text to let users know what the field is for			
1	The #email input field uses HTML5 validation to confirm that the entered text is an email address			
1	Within the form, there is a submit input with a corresponding id="submit"			
1	When you click the #submit element, the email is submitted to a static page (use this mock URL: https://www.freecodecamp.com/email-submit)			
1	The navbar should always be at the top of the viewport			
1	Your product landing page should have at least one media query			
1	Your product landing page should utilize CSS flexbox at least once			
Score out of 15		15		
Extra Credit (Out of 5)		5		
Comments				
I fixed this from before, but great job. You did amazing! Good job in putting in the purchase area.
